**DETAILED ACTION**

The amendment filed 12/12/2001 (Paper No. 12) has been entered. Claims 1-21 are pending. Claims 1-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

5 Election was made without traverse in Paper No. 8.

In the last Office action mailed 06/12/01 (Paper No. 9) at page 2, lines 2-3, it was indicated that Applicant's elected without traverse group IV, claim 10, and the species SEQ ID NO: 1 in Paper No. 8. However, the last Office action should have acknowledged that Applicant's elected without traverse group III, claim 10, and the species SEQ ID NO: 1 in Paper  
10 No. 8 because this is in fact the election was made by Applicants in Paper No. 8 at page 2. It is also clear from the text of the last Office action mailed 06/12/01 (Paper No. 9) that group III was examined.

Claims 10-21 are being examined to the extent that they are drawn to or encompass a method of treatment using a cC1qR binding domain.

***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention: each of the conditions in claims 14 and 18.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for  
20 prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 10-21 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5           Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

10           Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
